Education

Degree	Institution	Year of Passing	Grades/%
Bachelors of Science in Computer Science & Information Technology (BCIT)	NED University of Engineering and Technology	2025	CGPA (3.62)
H.S.C(Pre-engineering)	Adamjee Govt Science College	2021	A-1 / 94.18%
S.S.C (Science)	Quaid-e-Azam Rangers School	2019	A-1 / 90%

Projects

Final Year Project – Confizio (Conference Management & Paper Review Platform)

- Developed a **full-stack web platform** for managing conference paper submissions and reviews, addressing limitations in existing tools.
- Integrated **IEEE formatting compliance checks** and **plagiarism detection** for academic integrity.
- Designed a **secure role-based access system** for authors, reviewers, and organizers.
- Implemented **smart assessment tools** and **Supabase-based permanent file storage** for research papers.
- Tech Stack: **React.js, Node.js, MongoDB, Supabase, Tailwind CSS.**

Work Experience

Associate Software Engineer - REACT *04/2025 (Present)*

KoderLabs

- Contributing to building scalable, responsive web applications using React.js, focusing on performance, UI/UX, and component-based architecture.

Artificial Intelligence Intern *08/2024 to 09/2024*

PCSIR

- Created an OCR-based system for detecting and extracting multiple dates from reports using live webcam input.
- Automated the calculation of time intervals between identified dates to enhance data analysis efficiency.
- Efficiently processed large batches of reports, facilitating real-time detection and analysis.

Natural Language Processing Intern *03/2024 to 04/2024*

Neurocomputation Lab - NED

- Developed a sentiment analysis model to evaluate customer reviews for a restaurant.
- Utilized NLP techniques for preprocessing text data and feature extraction.
- Employed the Naive Bayes algorithm to classify sentiments as positive, negative, or neutral.
- Visualized results to provide insights for enhancing customer satisfaction.

Skills

- Tech Stack: HTML, CSS, Bootstrap, Tailwind, JavaScript, React.js, Next.js, Node.js, Python, C++, MongoDB, Oracle, Firebase, Supabase, Git.

Courses & Certifications

- The Complete 2023 Web Development Bootcamp by Dr. Angela Yu, Udemy.
- Huawei Certified ICT Associate (HCIA) – Data Communication, Huawei (2024).
- Machine Learning Workshop, NED University (2023).
